About

Introducing AONYX, the pinnacle of marine innovation and comfortable performance from renowned designer Eric Lerouge, whose reputation in catamaran design is unmatched.

Meticulously crafted using composite materials and quality workmanship, this Class 4

built by O Yacht boasts a light displacement of only 6700kg. The designer's legacy of precision thinking shines through in every curve and detail, ensuring a vessel that is as fun to sail and easy to handle as it is fast. Aonyx features a carbon reinforced structure and a performance sail plan with a flat head mainsail and all foresails on furlers making short-handed sailing a breeze. The efficient hulls offer exceptional sailing capability, allowing you to blow past other yachts to arrive first at remote anchorages with speed and confidence. Designed for sailors by sailors, Aonyx is capable of covering over 250 miles in a single day without compromising on comfort. State-of-the-art technology is seamlessly integrated throughout Aonyx. A cutting-edge Victron power management system, coupled with reliable Battle Born Batteries, keeps all onboard systems such as air conditioning or water maker running smoothly. Complementing this is a Watt and Sea hydro generator and a large bifacial solar panel array, mounted on a sleek custom carbon fiber frame that minimizes weight while maximizing energy efficiency. Every journey aboard Aonyx promises not only comfort and performance but also the thrill of effortless sailing. The innovative design and premium equipment deliver a ride that will put a lasting smile on your face long after you've returned home from your sailing vacation. Experience what catamaran sailing can be with the harmonious blend of speed, elegance, and reliability that is Aonyx. Have your cake and eat it too with this beautiful luxury performance catamaran.
