About

Solar Winds is our first yacht equipped by Integral Solutions, which is a unique marine system that operates with your boat's inboard engine, seamlessly producing and storing energy for future use. The Integral system is a greener solution for running air conditioners, replacing a diesel powered generator with a battery bank. Normally, the 4,600 watt solar array recharges the batteries and if needed, special alternators on the propulsion engines top off the bank when motor-sailing. The batteries can run all air conditioners onboard all night with no noise or diesel fumes. The system is completely automatic. With Integral, you can bid farewell to noisy, high-maintenance, and environmentally harmful generators, and welcome a top-tier boating experience wherever you may be. It's like nothing you have ever sailed before. You'll be absolutely amazed! Solar Winds has 4 nicely appointed queen staterooms, plus one bunk room. The bunk room shares a bathroom with the forward port stateroom making for the perfect family suite for those with smaller children. Or, the bunk space can be used to store luggage and extra provisioning. All staterooms have individually controlled air conditioning for your comfort. There is a large flybridge for spectacular views as well as for easy maneuvering and good sight lines for the Captain in command. Like all Bali Catamarans, there is a large glass "garage" door for a bright and open salon and forward cockpit with ample seating.

Specifications

Destination: Road Town

Builder: Bali Catamarans

Model: Bali 4.6

Year: 2025

Type: catamaran

Hull: catamaran

Length: 14.28 m / 46.9 ft
