About

The BAVARIA C46 sets new standards in the combination of ample room, excellent sailing characteristics and innovative solutions. Like all CÂ LINE models, the BAVARIA C46 was created in cooperation between the BAVARIA development team and Cossutti Yacht Design and offers a convincing combination for the most diverse requirements on board. The BAVARIA C46 combines the typical generous BAVARIA space on board and the proven Made in Germany solidity with even more sailing performance and greater comfort on board. The distinctive chines at the stern and the BAVARIA Vâ bow have already given the BAVARIA C38 and C42 exceptionally good and fast sailing characteristics. Cossutti Yacht Design has again successfully applied this design philosophy to the 14.86 meters long and 4.70 meters wide hull of the BAVARIA C46. As a result, the BAVARIA C46 possesses agile steering, converts the wind even faster into boat speed and, at the same time, allows for maximally large cabins in the stern and foreship. Thus, space and sailing pleasure are a winning combination on the BAVARIA C46. "After the presentation of the C38 and C42, which was also named the 2021 European Yacht of the Year, our customers have very clearly signaled to us that they look forward to a quick continuation of the concept. Therefore, we have put all our energy into the further development of the concept and are now in a position to present our customers the BAVARIA C46 with its convincing solutions," explains Marc Dïening, CEO of BAVARIA YACHTS. Whether relaxed and safe sailing with a small crew, single handed sailing or cruising with a large crew with sporting ambitions â the BAVARIA C46 offers all the necessary options for pure sailing pleasure with six optional winch positions, well over 100 square meters of sail area on the wind and optional Gennaker and Code 0. From the very spacious cockpit, the sun

loungers on the foredeck or after a relaxing time on the large bathing platform, you can quickly get into the water. Heavy but useful water sports equipment is always stored within reach in the BAVARIA B-BOX, so that the hours at anchor or in water can be enjoyed in a relaxed way by the entire crew. Decades of experience on coastal and long distance cruises have shaped further smart options on board. Customers can choose from various layouts ranging from 3 to 5 cabins, including a 4 cabin layout with 4 in suite heads or a 3 cabin layout with an additional separate room at the companionway. This can be used, for example, as a storage and tool room or as a directly accessible locker for wet oilskins. A full navigation station is always on board with the BAVARIA C46. The requirements for a sailing yacht around 15 meters are much more versatile today and can no longer simply be divided into classic categories such as performance or family cruiser, charter or owner's yacht. During the development of the BAVARIA C46, the focus was solely on what offers our customers real added value on board. And when looking for the right solution, detail by detail, we were able to disprove supposed necessary compromises in many places. With the BAVARIA C46, we have found the balance that customers expect from a sailing yacht of this size with many well thought out solutions," reports Marc Diening. Technical Data: Length overall (LMAX) = 14.860 m Length of the hull (LH) = 13.950 m Length of the waterline (LWL) = 13.315 m Beam of the hull (BH) = 4.700 m Maximum draught (TMAX) = 2.30 m Projected sail area (AS) = 115 m² Fuel tank (approx.) 210 l Water tank (approx.) 350 l

Specifications

Destination: Lefkada

Builder: Bavaria Yachtbau

Model: Bavaria Cruiser 46

Year: 2016

Type: sail

Hull: monohull

Length: 14.27 m / 46.8 ft

Beam: 4.35 m

Draft: 2.1 m

Guests sleeping: 10

Guests cruising: 10

Cabins: 4

Company: Genoa Sailing

Country: Greece

Sailing area: Lefkada

Charter area: Lefkada, Greece

Amenities
