About

'Sailing into Silence' 'Rosa dei Venti' ('Wind Rose' in English) has been uniquely designed to operate most of the time by using renewable resources and clean energy. It's an eco-friendly boat. It is energy-wise self-sufficient without using noisy and non-eco-friendly diesel generators. Sailors will enjoy the magic of silence, which only such a purist sail boat can offer, without sacrificing anything of the amenities and comforts at sea. Away from harbor, the boat uses solar energy and large batteries to power all the domestic electric appliances, such as coffee machine, microwave, ice maker, tv, dvd etc. It can produce its own water using the water maker, thus eliminating the need for reaching harbors for water supply. Four large refrigerators/freezers can provide sufficient capacity for many days and even the air/cons can be periodically operated with the batteries. Operating as a modern hybrid system, in case where additional energy is required, egg running the air/cons throughout the night at anchor, we have install using recording studio technics in order to achieve the best possible sound insulation, a backup generator that kicks-in automatically in order to provide the necessary energy to the batteries and shutoff also automatically when the batteries are

full. Attention to detail has been paid in every aspect in order to support the safety and easiness of operation at anchor. There is an oversized anchoring system, which can provide maximum safety when anchoring. In addition, the boat is equipped with a large dinghy carrying 30hp outboard, capable of covering longer distances easily when anchoring off-harbor and can also be used for watersports which is very rare for a catamaran of this size. When it's time for relaxation, there are large and comfortable mattresses at the front, the roof-top and the rear of the boat. Dimmable cockpit lights and underwater lights create a romantic atmosphere at night. 'Rosa dei Venti' brings a new level of comfort and innovative eco-friendly solutions to the sailing experience, making your holidays truly memorable.

Specifications
