About

A rare find of luxury yacht combined with sporty/ adventurous qualities which stands out head and shoulders above other monohull and catamaran hull yachts of this size. From bow to stern, guests cannot truly imagine the comfort, quality and spaciousness of SAMARA until stepping aboard. Named after the 'winged seed of the Sycamore tree', this yacht was built to glide effortlessly, efficiently and steadily over long distances, in shallow waters thanks to a minimum draft. Packed with innovative features such as solar power technology and cork decks while also catering to the most adventurous or laid back cruisers, every type of guest will appreciate what this yacht has to offer. The volume is remarkable with 4000 square feet aboard - beyond that of larger monohulls and attributed to her 31' beam versus the typical 20'. Stepping aboard the AFT DECK, there is an extra large al fresco dining area, well sheltered (plus eisinglass enclosure optional) alongside a full barbeque grill to starboard. Enjoy a cocktail or coffee at the full bar to starboard side or just appreciate the view. Entering the MAIN SALON brings everything to life with open plan galley and bar stools to starboard and the welcoming lounge area to port. Concealed overhead is the 55" TV transforming this area for movie night or morning news while at the galley bar. There is easy access to a bayhead on this level just forward of the lounge as well. Make your way amidship forward into a cozy sunken, second lounge situated a few steps down from the main salon. A romantic fire place feature here on a blustery evening makes this lounge very inviting. A true sanctuary on the main deck is the forward facing MASTER suite with open plan from

port to starboard bringing in the gorgeous views and natural light of outdoors, inside as well. To port is the ensuite Master bathroom with double sinks featuring designer waterfall taps, private toilet and stall shower. To starboard is a walk-in wardrobe with drawers and hanging closet. Storage is ample throughout. A private glass door leads forward onto the Jacuzzi deck serving as a full Owner's deck and offers privacy with the subtle wrap around of superstructure design on both sides. Large petal-shaped loungers invited guests to relax in the sun or curl up and read a book in privacy. Forward below deck in the port and starboard hulls guests will find the comfort of two Queen staterooms, each en suite with spacious showers, toilet and ample storage in two closets and cabinetry. Aft in the starboard hull 2-3 more guests can find accommodation in a double bed with pullman bunk, also with en suite facilities. Moving up to the SUN DECK during the day is akin to stepping into a private garden in an exclusive villa. Two custom cabanas easily offer comfort to 3 adults each with shade as desired overhead and around. A 'jump seat' sunpad situated in front of the helm on this level also provides the best view from above. As the moon rises, this deck transforms to a whole new experience of its own. Whether experiencing movie night with the oversized cinema in position and popcorn machine or an elegant dinner under the stars, this is the most favored space aboard by most. Not to forget the area where the most action occurs, the SWIM PLATFORM. A hydraulic center stage secures the wave runners when under way and once lowered, this level is the easy access deck for a variety of water activities such as diving, enjoying water toys, boarding the tender, and swim entry. Transform this area with chairs and inflatable cushions for the perfect BEACH CLUB. Each hull also offers a set of steps and a swim ladder for water access.

Specifications

Destination: Piraeus

Model: Power Cat 80
