About

Introducing Stephanie â A New Standard in Eco-Friendly Luxury Yachting Welcome aboard Stephanie, where luxury meets sustainability on the open sea. This state-of-the-art yacht is designed for eco-conscious travelers who donâ t want to compromise on comfort or performance. With cutting-edge technology and a commitment to green solutions, Stephanie provides an unparalleled yachting experience with minimal environmental impact. She accommodates up to 8 guests across four lavish cabins, each offering private facilities to ensure the utmost privacy and relaxation for all guests! ***Whisper-Quiet Solar Power*** Stephanie runs on a high-efficiency solar system, eliminating the need for noisy generators. This sustainable power solution ensures a peaceful and serene environment for guests, while also saving fuel and reducing the yachtâ s carbon footprint. Powered by lithium batteries and solar panels, the yacht offers silent, eco-friendly operationâ no generator needed to run the air conditioning at night. ***Low Carbon Footprint, High-Performance Yachting*** With its innovative green technologies, Stephanie achieves an

impressively low carbon footprint, allowing you to explore the world's most beautiful waters while leaving a minimal environmental trace. *Complete Independence with Water Desalination System* Equipped with an advanced water desalination system, Stephanie generates all its own fresh water from the sea, providing complete independence while cruising. This onboard water production system means you can explore remote destinations without the need to rely on ports for water replenishment. *Professional crew of 4* Her dedicated crew of 4, consisting of a captain, chef, stewardess, and deckhand, will make sure to guide you effortlessly through the Greek islands, offering expert navigation, delicious cuisine, and attentive hospitality along the way. Set sail aboard Stephanie and experience the perfect blend of luxury, independence, and eco-conscious design.
