About

â Happy is the man, I thought, who, before dying, has the good fortune to sail the Aegean seaâ Nikos Kazantzakis, Zorba the Greek From hidden anchorages away from the tourist hustle and bustle to traditionally Greek seaside tavernas â Zorba Cat truly offers guests an unforgettable authentic sailing journey in Greece. From family friendly charters to voyages for couples or friends, She certainly has something for everyone. Zorba Cat sails the Greek islands in comfort and style, providing guests with a luxurious sailing experience. She is a modern Fountaine Pajot Eleuthera 60ft catamaran. Fountaine Pajot is one of the worldâ s number one builders of cruising catamarans and the Eleuthera 60 was called their flagship. This yacht was very quickly appreciated by the customers due to its sailing performances along with a high level of comfort. ZORBA Cat is not only the name of the boat, itâ s the philosophy behind it: You only have one life so enjoy every minute of it and create wonderful memories â thatâ s how one can sum up the adventures of Zorba the Greek written by Nikos Kazantzakis. Owners and crew, Aga and Greg share his love for Greece â the slow life, marvellous sunny landscape and kind people with unbreakable optimism. They appreciate the beauty of nature, the joy of life, good music and great food. So when you are on board of Zorba Cat, naturally you begin to share this philosophy and feel its good influence. â I felt once more how simple and frugal a thing is happiness: a glass of wine, a roast chestnut, a wretched little brazier, the sound of the sea. Nothing else.â â Nikos Kazantzakis, Zorba the Greek A sailing experience in Greece with a luxury catamaran is accessible to all ages and abilities. Her simple rig makes her a leisurely sail with winch systems and modern navigation equipment. Unlike some catamarans, sheâ s a great boat to sail, whether youâ re an experienced sailor looking for some sunshine or a novice wanting to try something

new. As an advantage, she is always sailed by her owners â Aga and Greg who have been organising sailing holidays in Greece and Caribbean for the last 20 years. Due to their sailing background, they chose exactly this model as a strong and high-speed sailing catamaran capable of safely crossing oceans with comfort. The shape of the hulls makes Zorba Cat not only beautiful, but also incredible from the nautical point of view.

Whenever possible, the boat will be going on sails being environment-friendly and creating opportunities for gaining sailing knowledge for those interested, while others can relax, sunbathe and enjoy fast sailing at ease with a glass of wine in their hand.

The itineraries prepared by the Owners are the absolute best of what Greece has to offer. Their local knowledge will guide you to the crystal clear blue sea, small harbours away from tourist crowds and their passion for food and wine will enable you to taste Greece in a way exceeding expectations. Variety of unique attractions arranged with locals is an additional value of the holiday. From healing baths in volcanic hot springs, through UNESCO heritage historical sites and exploring sunken city to family-run secret winery and Zorba dancing with its owners, a tailor-made trip will be adjusted to Guest's needs and preferences. Last but not least, Safety is always the priority. Registered under the Greek flag as a commercial yacht with Greek charter licence, inspected every year and equipped with all required safety gear, Zorba Cat is a safe and sound choice for your next holidays. ACCOMODATION / CHARACTERISTIC: She has

four private cabins for guests, made up of two master aft ensuite cabins and two doubles forward ensuite cabins. All cabins are complete with modern push button electric toilets and wet room-style showers. With a generous saloon and a well-equipped galley, Zorba Cat was built with charter and guest comfort at the forefront of her design, with full air conditioning throughout. The generator, water maker, solar panels and other amenities makes her independent, self-sufficient sailing vessel. Her size: 60feet (about 156 square meters of space for guests) guarantees stability and comfort (speeding 10 knots, glass of wine can still be kept on the table). At least four separate areas in common spaces provide a lot of privacy. Refurbished in 2022. With a dropped transom, easy steps down into the water, nets to lay out on the bow, sunbathing cushions on the rooftop, outdoor seating, and a dining area at the stern, Zorba Cat gives guests the perfect access to that crystal clear Mediterranean sea! The ultimate route in Saronic is a mix of sailing, swimming/relaxing in beautiful bays and sightseeing unbelievable must-visit ancient landmarks. On the way there is a UNESCO heritage ancient theatre in Epidavros (the best preserved in the world with incredible acoustics hard to Find nowadays. When you drop a coin on stage you can hear the sound in the last row); in Epidavros we have dinner in our favourite family-run Taverna where the tables are situated under the Orange trees - absolutely stunning (you can eat one growing directly above your head). Plus the owner is a woman (not very popular in Greece), which makes the place magic! In the Bay outside Epidavros we anchor next to sunken city - snorkelling from the boat over ancient town below the water on depth of 1.5-2m; stunning Temple of Aphaia one of the ancient architectural wonders, built on the hill of Aegina Islands (also known as "pistachio island") - beautiful and unique; on Aegina we also have a possible trip to family-run pistachio plantation, where you can see how the pistachio grow and find out why there is only one male for 100 woman :) In the evening we go for dinner with live music on a typical greek instrument bouzouki - learning Zorba dance is a plan for the night! :) Perdika - a small fishing village where you can find the nicest people in the world; the family that runs our favourite Taverna, after many years became our close friends, almost like family members. Kalotina and Notis will make sure that you will get the best service and be treated with care. Mamma is making absolutely the best moussaka in the whole of Greece! The tzatziki with homemade yogurt is a life changer :) Next our secret harbour (with one family-run taverna and no shop) that can fit only 7 boats. The relaxed vibe and the beauty of the village hidden between high mountains is infectious, often said to be the most beautiful spot in all of Saronic. Very local place which is known only by those who have sailed there for many years. Other port that we may visit â Methana: a slow town away from crowds with natural

volcanic hot springs. Back pain, stress or tense muscles? We got you covered with 15 minutes in those amazing waters! From there we can make a trip to an amazing local winery and try some famous Peloponnese wine (more info below)! Poros - an Island with unforgettable views and the best grilled dorada we ever ate (and we travel a lot!). After supper at Mike's we can go for a nice walk / hike up the hill to reach a small typical chapel from which you have one of the best views in Saronic! A little meditation at the top will be a perfect ending of the adventurous day. On the way down to an Ice cream place - the pistachio flavour from local nuts will make you come back for it the next day! Depending on the wind we may also visit Hydra, jewel of the Saronic - an island with no car traffic - all the transportation is done only by donkeys; the sunset in Hydra is said to be even more beautiful than in Santorini. No wonder why this island is a place for summer houses for many film stars and singers. At the top after Long hike you can visit monks in a monastery. The architecture is absolutely amazing and one of a kind - maze of streets was built that way to protect from Pirate attacks. Getting Lost there is a very nice experience :) and cherry on top - one more secret harbour! We are the only boat of this size that is brave enough to enter due to the very shallow waters. Only locals and very experienced captains can do so, but once you get in - it's so rewarding! no tourists, one typical greek taverna, quiet beach and local fisherman - a true paradise away from the crowds, a pearl we share only with those coming on board with us! The winds in the Saronic bay are perfect for a leisure trip. They are not too strong but they blow everyday. The islands are far less touristy and commercial than those in the Ionian sea. A chance to visit and feel the real Greece with its breath-taking historical sites. P.S. THE WINERY! Two years ago we introduced a new attraction that is very much enjoyed by our guests - a trip to the small, local vineyard with international wine awards and the vines growing in volcanic soil. It is a very special family run place (NOT a tourist trap), actually we are the only tourists visiting this place. Father, Nektarios is a very funny guy who makes the tour and tells all about the wine making in the family (they even put some of the bottles at the bottom of the sea to give the special flavour) and his wife Giota (who doesn't speak English) cooks local dinner from ingredients coming from her garden. During wine tasting (which is more like wine drinking looking by the amount we usually drink) every bottle (usually around 7-8, white, rose and red) comes with a different meal that is well selected to this type of wine. The wine and food pairing is excellent (our opinion best we ever tried!). After this amazing feast our hosts (if they are in the mood) show us the typical Greek dance and songs and usually we dance Zorba. It is truly a local and amazing night, often we hear the best our guests ever had on holidays. The food is homemade and unbelievably tasty (have you ever tried aubergine cooked by the fire in red wine for 7 hours?) and the experience is as Greek as you can get :) *** During all our trips we try to stay far away from tourist crowds - in the small harbours or on anchorages next to desert islands (excluding goats and birds). Each day we stop for swimming in beautiful bays - some of them completely wild, others with one small taverna, serving for lunch fresh fish and seafood (often taken out of the water before our eyes). For our guests we offer a possibility of jogging/yoga in the morning, organic

food on board and a healthy lifestyle close to wild nature. Friendly local people and lots of tasty food and wine are the common features for all the islands that we visit.
